

AMD-K6® Processors

The Superior Engine for Windows® Computing

The Smart Choice

- **Better Performance for the Price than Pentium® II**
- **Windows® Compatible**
- **MMX™ Enhanced**

As a smart PC buyer you want the right system to explore the Internet, communicate by e-mail, use your productivity software, give your kids an educational edge, and play the latest computer games. No matter what capabilities you want from your system, the AMD-K6® processor is the smart choice for both performance and price.

Better Performance for the Price

The AMD-K6 processor is available in clock speeds of 300, 266, 233, and 200 MHz, the AMD-K6 processor delivers better performance for the price than Pentium® II. You get the best of both worlds: serious sixth-generation performance and serious savings.

For the same price as a Pentium II equipped system, a PC powered by the AMD-K6 can include more memory, a larger hard drive, a faster modem, better graphics acceleration, and other performance-enhancing features. No matter how much or how little you want to spend on your PC, you can get richer, more powerful configurations from AMD-K6 processor-based systems.

MMX™ Enhanced

The AMD-K6 processor uses the latest MMX multimedia enhancement technology to deliver vibrant graphics, crystal-clear audio, smooth video, and overall impressive performance.

AMD-K6 vs. Intel Celeron

Don't settle for less than the true sixth-generation performance of an AMD-K6 based PC. Systems based on the AMD-K6/300 deliver significantly faster performance than systems based on the Celeron 300 processor, but at a comparable price. In fact, even an AMD-K6/200 based PC delivers better [Windows performance](#) than a Celeron 300 based PC!

Complete Compatibility

If it's from AMD, it's compatible. The AMD-K6 processor's compatibility is proven through extensive internal and external testing and verification. The AMD-K6 is compatible with Microsoft® Windows® 95, Windows NT, other leading operating systems, more than 60,000 software applications, and the latest MMX software. Which means you can fly through your favorite games, business software, and Internet applications with the [assurance of full compatibility](#).

The Smart Choice

Now you have a choice. The AMD-K6 processor gives you the freedom to choose the performance and features you need at a system price that's right for you.
