

SparQ Awards and Accolades Gallery

SparQ continues the SyQuest history of award winning performance!

[FORTUNE Magazine Review](#)

"Overall, SyQuest's SparQ beats Iomega's Zip in price and performance."

[HOMEPC Magazine Reviewer's Choice Award](#)

"Great performance and high capacity for an incredibly low price — just under \$200 — make this 1-GB drive a winner."

[PC Computing Magazine](#)

"Do the Math. The SparQ's best feature by far is its low price. SyQuest has managed to keep the price down in terms of both initial expense and additional media costs."

[San Jose Mercury News, Feb. 8, 1998](#)

"I think all three (competitive products) are about to be smoked by the SparQ. A gigabyte for \$36 in a \$200 drive is hard to beat. People on a very tight budget might be tempted by Backer, but I think for performance and ease they're better off stretching to buy a SparQ."

[PC Magazine Editor's Choice Award](#)

"SyQuest has leap-frogged the competition (and its own products) with the SparQ; it is truly a breakthrough product."

[Computer Life Magazine 5 Star Product](#)

SparQ 1.0 GB is Computer Life's 5 Star Product winner for the Storage class. Check out the complete list.

[FamilyPC Magazine](#)

"SyQuest's SparQ provides a simple, quick, and inexpensive way to save your data, expand your storage capacity, and preserve your PC memories. It easily wins a FamilyPC Recommended score."

[Windows Magazine WinList 1998](#)

"Removable storage solutions abound today. However, the SparQ's easy installation, excellent pricing, good backup software and solid performance earn it a spot on our WinList."
